

Bandaru Sai Sumanth

Motivated Computer Science graduate with knowledge of Python, SQL, MS Excel, and cloud technologies including Azure and AWS. Skilled in data analysis, visualization, and data preprocessing through academic projects and internship experience. Familiar with AutoCAD (2D & 3D), with strong attention to detail and spatial understanding relevant to mapping operations. Quick learner with strong problem-solving, communication, and teamwork skills, eager to contribute to data-driven and mapping-related roles.

EXPERIENCE

TechIRavan, Hyderabad — Associate Engineer Intern

Jan 2025 - Jan 2026 (1 Year)

- Worked on Python-based application development and testing using Django.
- Assisted in data analysis, debugging, and visualization using Pandas and Matplotlib.
- Collaborated with team members using Git and basic cloud tools.
- Contributed to the **Crime Rate Analysis** project by preprocessing datasets and identifying regional trends.

Mahathi Engineering Industries PVT. LTD, Hyderabad — Solar Panel Manufacturing Intern

Aug 2021 - Feb 2022 (7 Months)

- Assisted in monitoring solar panel production and assembly processes.
- Conducted quality control inspections to ensure product standards and efficiency.
- Maintained production records and supported workflow optimization activities.
- Helped identify manufacturing issues and supported corrective process improvements.
- Worked collaboratively with production teams to ensure smooth daily operations.

EDUCATION

Aurora's Technological and Research Institute, Hyderabad — B.Tech

Nov 2022 - Jul 2025

Govt. Polytechnic Yadagirigutta, Yadagirigutta — Diploma

Jun 2019 - Jul 2022

VijayaRatna High School, Hyderabad — 10th Grade

Mar 2018 - May 2019

CERTIFICATIONS

- **Python (Full Stack)**, TechIRavan — Oct 2025
- **Agile Project Management**, Alison — May 2025
- **Advanced Excel, Word, PowerPoint, ExcelR** — Nov 2022
- **AutoCAD: 2D & 3D**, NSIC — Jan 2022
- **Power BI, SkillCourse** — Apr 2026

PROJECTS

Crime Data Analysis

– (March 2026)

Tools: Python, Pandas, Matplotlib

- Analyzed regional crime datasets to identify trends and patterns.
- Performed data cleaning, preprocessing, and visualization for accurate analysis.
- Generated graphical reports to improve data interpretation and decision-making.

Automated Cyber Threat Identification and Profiling

– (Jun 2024)

Tools: Python, Natural Language Processing (NLP)

- Built a prototype to detect and categorize cybersecurity threats from textual data.
- Applied anomaly detection techniques to classify threat levels.

SKILLS

- **Cloud Technologies:** Microsoft Azure, AWS (Basic)
- **Programming Languages:** Python (Basic), SQL (Basic), JavaScript
- **Frameworks & Tools:** Django, NLP, HTML, CSS, VS Code, MySQL, Git, MS Excel
- **Design Tools:** AutoCAD (2D & 3D)
- **Soft Skills:** Problem Solving, Critical Thinking, Communication & Collaboration Skills
